

## **ABOUT**

With this ReShade preset I tried to create a VHS like retro look to the game.

I used 15 different shaders to this, so it can impact the performance! There is a benchmark below on the 4th page for reference.

I configured the shaders on 1440p, on other resolutions the effect of this preset can be looks different a bit.

## CRASH MANAGEMENT

Make sure you are not running **XFire**, **Afterburner**, **EVGA**, other kind of tools and **overlays**.

**NVidia GeForce Experience** can produce issues with the ReShade, same with **Steam Overlay** enabled in-game.

Start the game in admin mode.

Trainers can conflict with ReShade!

If the game crashing with this mod I recommend to use **Simple Trainer for GTA V!**

With this trainer I can start the game without crash in 99.9% of starts.
